

GUTTER FLOW SYSTEM

**REVOLUTIONARY
GUTTER
PROTECTION**

Who are we?

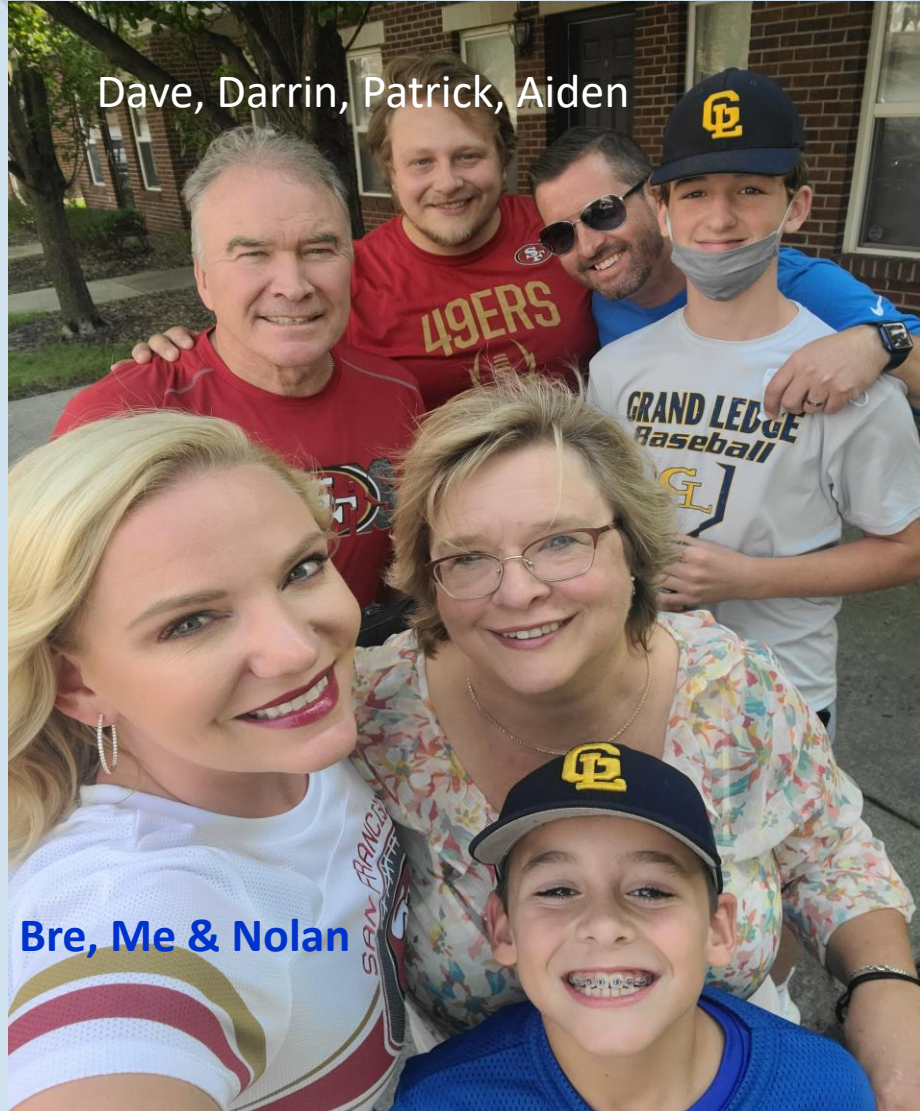

- Our family invented and patented a revolutionary Gutter Guard in 2008.
 - Dave has been a building contractor for 45 years.
 - I was a Dental Hygienist for 32 years.
 - Four kids, 8 grand kids, two dogs, three cats
- The product and our company are called **Gutter Flow System**.
- We are a family owned business and manufacture in Haslett, Michigan.
- *Our Plan:* Start Gutter Flow when we got the patent.
 - Received Patent in 2014.
 - Meanwhile, made enough for about a dozen homes.
 - However.....
- *Life doesn't always go as planned*
 - Major health issues for both of us.
 - Me: Focus on staying alive. (septic 11 times in 2 years, nephrostomy tubes, neuropathy, memory loss, etc)
 - Dave: car accident 1989: broken neck, shoulder, knees, ribs, punctured lung, etc.
 - Gutter Flow had to wait.
- Started Gutter Flow System November 2019..... And then COVID

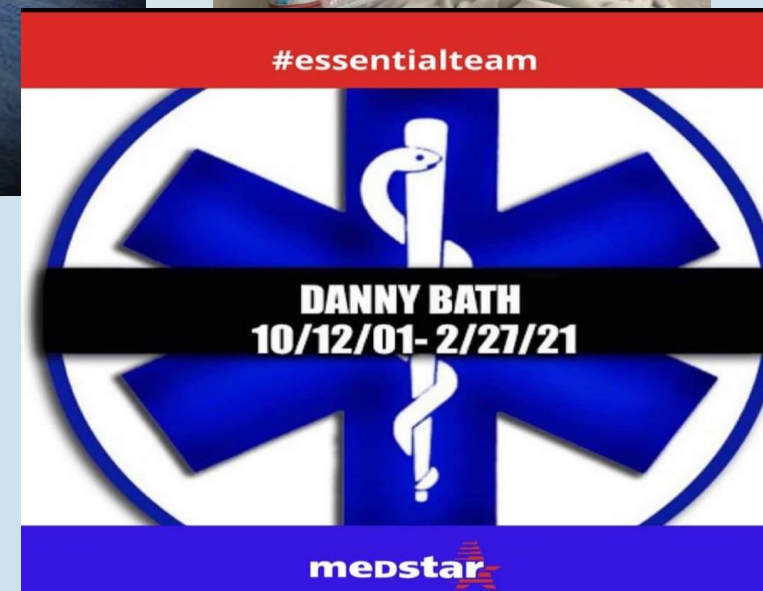

Our Crew

What Would Danny Do?
Page created to recognize people doing
good things.
Please Pay it Forward in Danny's honor.

Why did we invent Gutter Flow?

No Time No Money

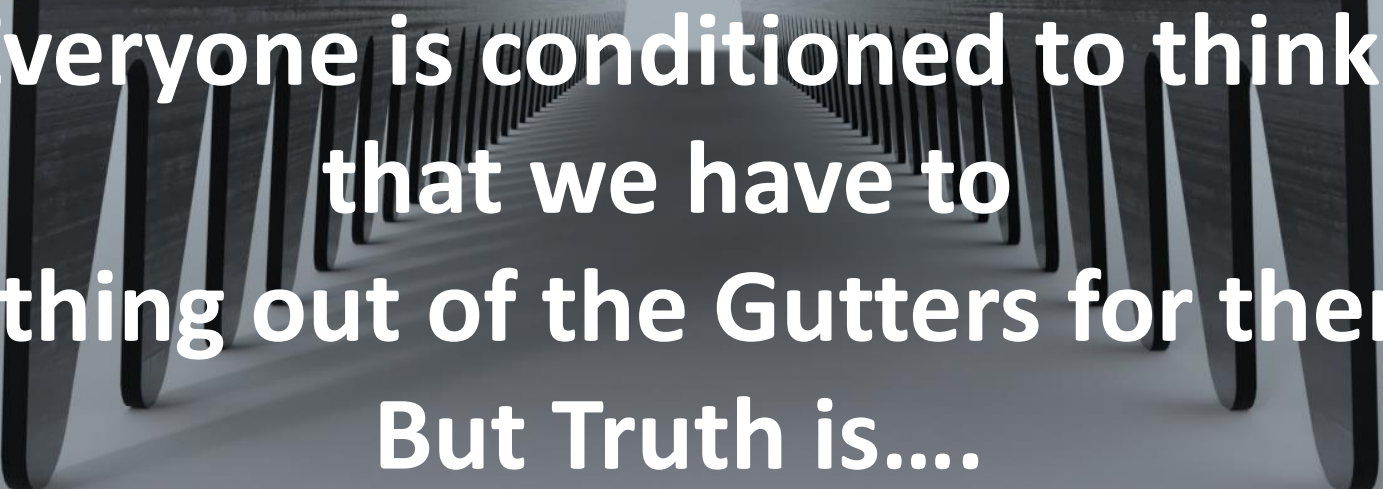

- We have two rental homes in East Lansing, Michigan
- Cleaned gutters 5-6 times PER YEAR PER HOUSE and still wasn't enough.
 - Flooded basement, roof leaks, over flowing gutters....
- We could not afford high end gutter protection, and we knew from construction jobs that the “cheap” stuff wouldn't last a season.

SO WHAT COULD WE DO?

- **CREATE A SOLUTION** = Gutter Flow System invented 2008
 - Hand made original pieces.
 - Installed at rental houses.....IT WORKED!
- Perfected the product and applied for patent 2010
- Manufactured couple thousand feet (dozen homes)
 - Tested and proven to work for 10+ years
- Plan was to launch the business when the Patent was approved
- Received Patent 2014, but Health issues delayed start up.
- Gutter Flow System launched November 2019

GUTTERFLOW
SYSTEM

Everyone is conditioned to think
that we have to
“keep everything out of the Gutters for them to work”
But Truth is....
We just have to keep them functional.

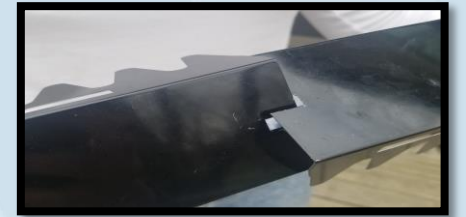

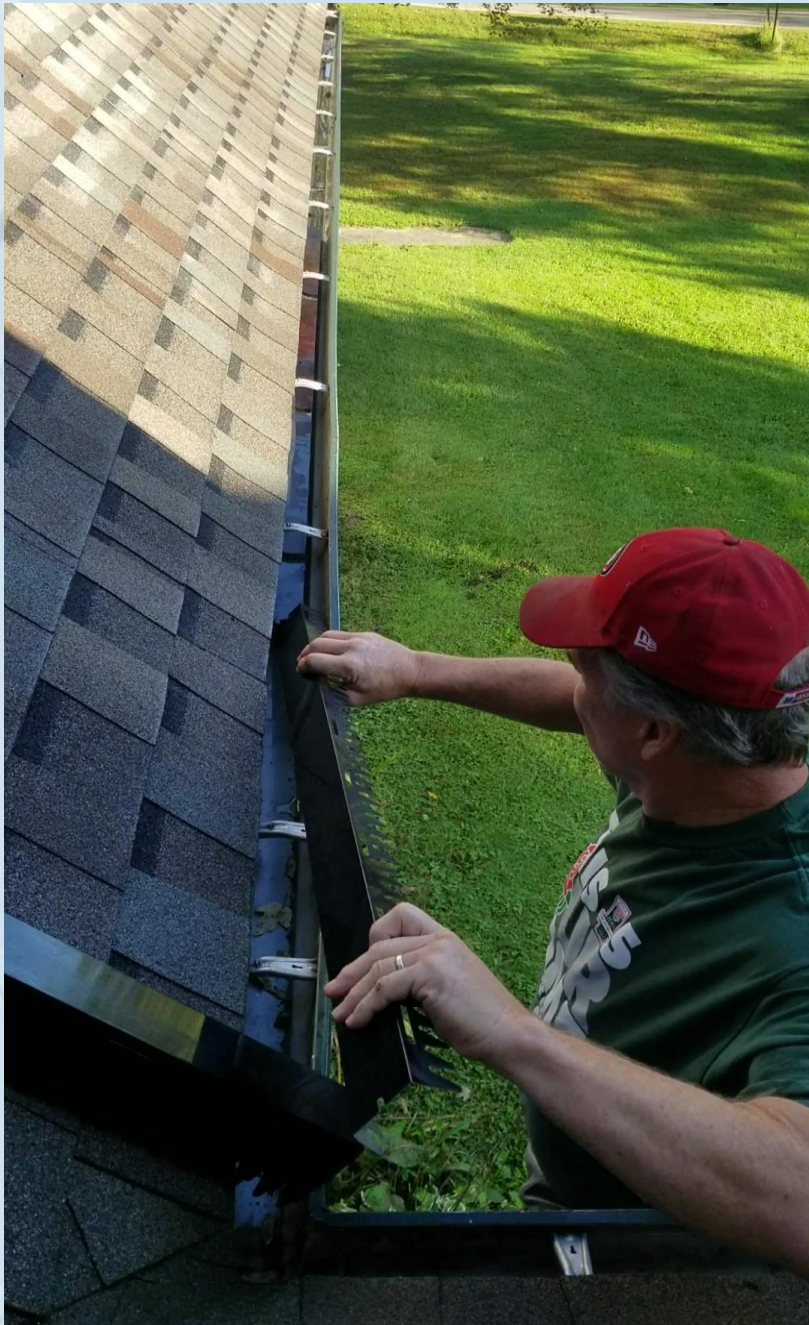

Compare with and without Gutter Flow System

3 years of Debris in gutters with extreme conditions

- Same day
- Same rain
- Same house
- Back gutter has Gutter Flow
- Front gutter has none

INSTALLATION is EASY with our Patented Interlocking System

- One ladder location
- No special tools, clips, brackets or hangers required.
- Sits securely inside new or existing gutters
- DIY Friendly
- Great ROI for Preferred Contractors

NOTHING in this World is Maintenance Free!

- Gutter Flow System Guarantees a **96% reduction** in maintenance.
- On average, every 3-5 years
 - Simply blow out debris with a leaf blower
 - Scoop out problem areas with your hand
 - Use a garden hose
 - Or to be extra thorough, you can remove, clean and reinstall.
- **Only transferable gutter guard on the market

Screens

Without mesh. Don't bother. CHEAP

With Mesh: **EXPENSIVE & Maintenance Required.**
Brush or power wash at least 1-2 times per year to remove moss and debris.

Hoods or Reverse Curves

EXPENSIVE!!

Maintenance Required: Brush along curve at least 1-2 times per year.

And if something gets inside.... Good luck getting it out.

GUTTERFLOWTM

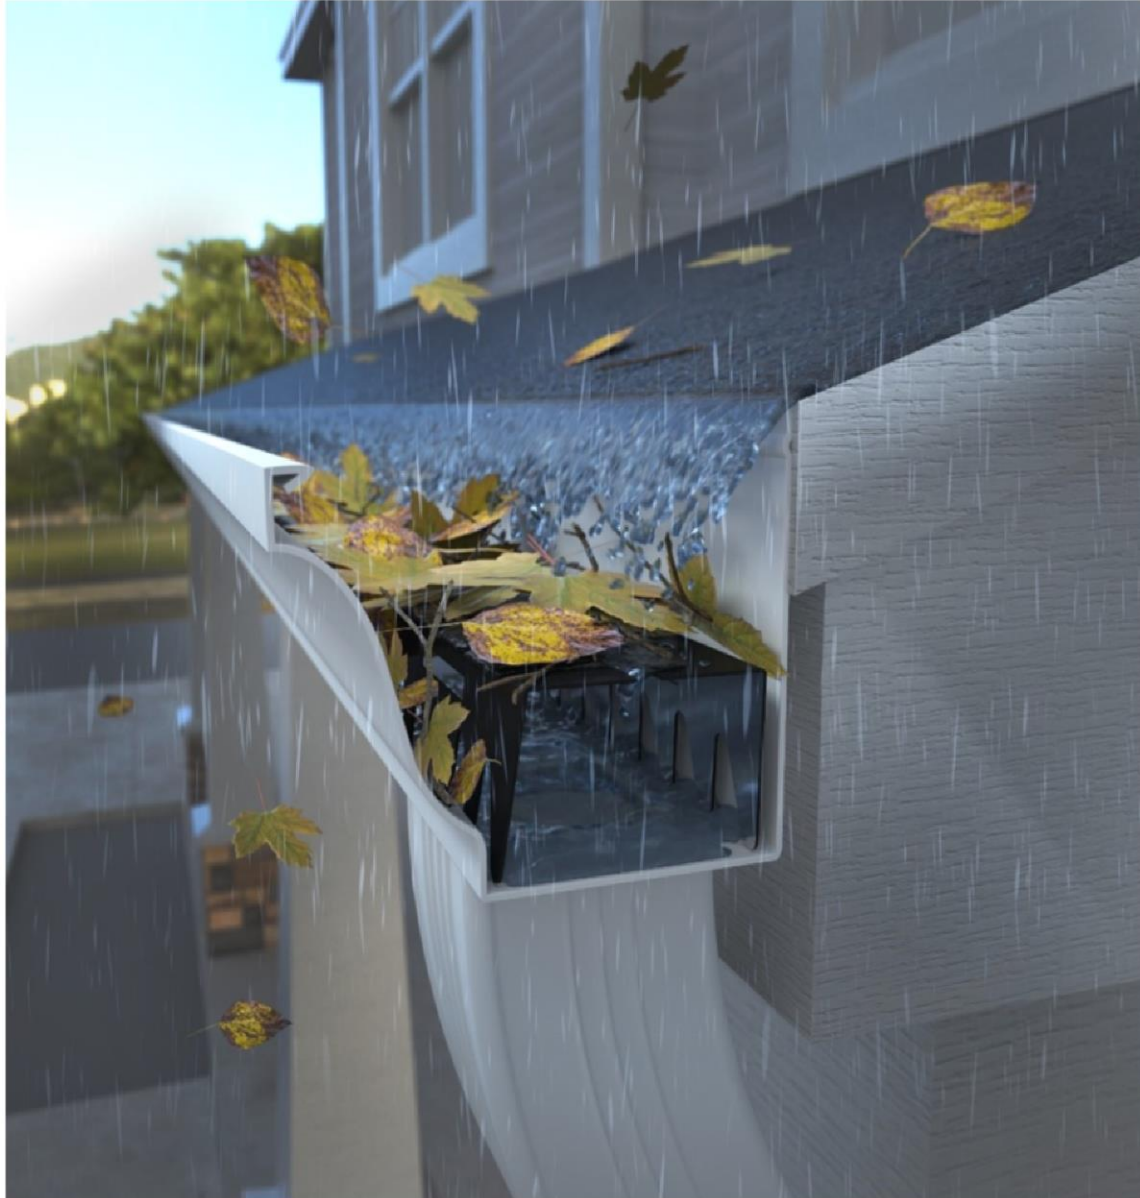

SYSTEM

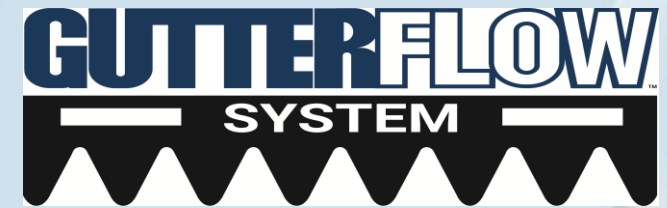

A good referral for me is:

- The **gutter installer** who put gutters on your brothers house.
- The **property manager** who manages your Aunts Condo Association.
- Your **Friend at Church** who has ice cycles or gets water in basement.
- The **elderly neighbor** who said he needs to find someone to clean out his gutters again.

Thank you!
